

Strut*Foot*

Fleeces

The StrutFoot Fleece has been designed to fit both our plastic feet as well as our rubber feet.

They are used for in between asphalt and PVC roof membrane surfaces. This will therefore help prevent polymer migration between the plastic and rubber products.

Product Information

Part No.	Length (mm)	Width (mm)	Thickness (mm)
SF9010	215	215	4
SF9011	315	315	4
SF9012	515	515	4
SF9013	260	200	4
SF9014	410	200	4
SF9015	610	200	4
SF9017	1010	200	4
