

Strut*Foot*

HD Frames

Strut*Foot*'s HD System is predominantly used for large Air Handling Unit's and Chiller's. It is manufactured in house enabling us to make the design of the system suit the unit being supported.

It has been designed using 82x41 channel for both strength and ease of installation of cable management and the units being placed onto it. Our HD system is galvanised making it suitable for roof applications.

Welding to ISO 9606-1

Galvanising to BS EN ISO 1461:1999

ISO 9001 Quality & ISO 14001 Environmental Certification Number 1753
